

# TD Banknorth Garden gets the Jet Ice Paint Stick treatment

FOR IMMEDIATE RELEASE

November, 2005

Boston, Massachusetts; home of the National Hockey League Boston Bruins..... Jet Ice Vice President, Dave Loverock took the Jet Ice Paint Stick on the road to TD Banknorth Garden.

You have read about it, seen it and now here it is in action - lines and circles in half the time! Our **Paint Stick** is light weight, offers flexibility to adjust the liquid paint flow and best of all, allows the technician to stand upright during the application process.

From a cold floor to white, lines, circles and logos, it took less than six hours for the TD Banknorth Garden ice surface to be transformed.

Our premium ice paints, used in conjunction with the **Paint Stick**, give you the brightest ice surface and logos that look great for television.

Jet Ice is a Preferred Ice Rink Equipment Supplier for the National Hockey League in the category of Ice Treatment. For more information on the **Paint Stick** and other Jet Ice products, visit [www.jetice.com](http://www.jetice.com).

Jet Ice has been “bringing ice to life” for 25 years. Founded by the late Mr. Doug Moore, Maple Leaf Garden’s Chief Engineer, Jet Ice is the #1 choice of Professional Ice Makers. With over 4,000 customers world wide, their high quality ice paint and water treatment systems are used on surfaces ranging from local community rinks to world class facilities staging Olympic Games, National Curling Championships and the National Hockey League. Jet Ice has offices in Newmarket, Ontario and Regina, Saskatchewan.
